 - 300 GB 2-Port SAS Drive at Port 2 : Box 2 : Bay 6

Available Tasks - Smart Array P420i in Embedded Slot

- Create Array** Creates an array from a group of selected physical drives. Once an array is created, the unused space is available for creating logical drives. A logical drive cannot be created unless an array exists.
- Manage License Keys** Allows the ability to add or remove License Keys. Depending on the Key(s) entered or removed, various features can become available or revoked.
- More Information** Provides an in-depth display of available information for the currently selected device and all of its child devices when applicable.

Four SAS HDDs and two SSDs are listed here
